NATIONAL HEADLINES

The land to establish the country of Israel was given to the war-torn Jews two decades ago. The land had belonged to the Arabs, who were naturally resentful, but not well-organized enough to pack much power into their objection. Now, years later, and after constant fighting, two of the major parties involved in the complex situation, are considering a peaceful settlement of the land conflict. The two leaders of Egypt and Israel, Anwar Sadat and Menachem Begin, were trying to bridge the hate and hostility; hoping to give their people a more optimistic future. We cheer their efforts because the hot spots in the Middle East are hooked together with a fuse that could ignite and shatter the world.

Louise Brown, blond, blue-eyed and just under six pounds, was the first child in history to be conceived outside of her mother's body. Her birth was in a British mill town. The event was variously hailed as a medical miracle, an ethical mistake and the beginning of a new age of genetic manipulation.

FORENSICS

Forensics Club, under the direction of Denna Brandenbur, argued their way to many fantastic moments of debate. All of the Forensics members were well-equipped to debate with anyone on just about any subject. One of their "extra" activities was the much discussed COMPUTER MATCH UP. The computer supposedly matched everyone with their most compatible fellow Jordanites. (Were you one of the lucky ones who happened to be most compatible with a teacher?)

Police training, films were especially popular. Deputy Cunningham and officer Pepper conducted the program. Budding police officers and future citizens enjoyed viewing Law Enforcement from the other side.

The thrilling feeling of the winning touchdown.

Beetdiggers wind up a **LONG** season ... The Jordan High football team started the season with fire in their eyes. While scoring 66 points, they held their opponents to only 33. At the halfway point the team was 4 and 1. Then the door slammed shut after a dismal loss to Murray, a heart-stopper at Judge and a disaster with Cyprus. At the end of the season we posted a 4 and 4 record.

The "gym guys" get ready for a race.

THE BEET GOES ON . . .

Radiant rays beam brilliantly downward upon a collage of chaos. Powerful pillars and weathered bricks enchant the entrance.

Forgotten whispers lie forever silent in the framework. A silence broken barbarically by tribes of transitory teenagers.

The brave, buoyant and bewildered walk busily through the passages of this petrified palace.

Menacing boys meet in open halls heckling and harassing girls, amiably armed with combs and smiles.

"Hi's" echo everywhere as the cramped and crowded push diligently toward their destination.

Curious courts of learning stand adjourned until summoned by the committed.

Thrills are found in a catacomb of clubs: see frantically flipped heads, hear majestic music, watch dramatic dialogue, or get involved in community service.

The more active dedicate their stay to sports — not always winning, but truly trying.

There are also those broadly bent on carrying tutorial texts and achieving scholastic supremacy.

Impatient instructors intensely try to create a calm wherein they can loose loads of knowledge.

Simply suprising, is that this mixed up mass makes sparks fly enabling fun and friendship to flourish.

The massive structure stands proudly as armored doors swing shut. The metal models represent pride and power.

Victorious voices echo more strongly and sternly, telling tales of growth and dynamic development.

Every strong steady sound representing laughs and loves of so many who proudly became pieces of this place.

In mellow majesty creeping from cracks and crevices, comes positive proof that the BEET goes on.

Class of 1978
